Description

There are 4 main objectives of this course:

1. You gain an understanding of the AML risks posed by Investment Fund products and services;
2. You can identify potential AML red flags on client transactions;
3. You have an awareness of AML examples and typographies relevant to Investment Funds;
4. You understand the obligations on regulators to perform monitoring and supervision activities;

Target Audience

This course is intended for all employees who work in the domain of Investment Funds. It is not jurisdiction specific and can be used globally.

Modules

The course has 4 main modules covering what we call the **4Rs** of AML:

1. **Risks** - which are inherent in your line of business;
2. **Red Flags** - which your members of staff should be particularly aware of;
3. **Real Examples** - of money laundering or terrorist financing using products and services similar to yours;
4. **Regulatory Inspections** - what regulators find when they inspect other firms in your line of business;

Customisation Options

- ✓ Edit modules
- ✓ Add additional modules
- ✓ Client specific content
- ✓ Change knowledge check questions
- ✓ Change knowledge check pass mark
- ✓ Branding to client company

Knowledge Check

There is a 10 question knowledge check at the end of the course with a standard pass mark of 80% and unlimited attempts. The 10 questions are drawn randomly from a larger bank of questions. Each attempt will draw a different mix of questions.

Certification & Reporting

All of the courses running on our platform can issue course completion certificates automatically to the users where they have obtained the learning objectives. Where required we can provide copies to nominated Compliance and Human Resources teams.

For custom branded courses, the certificate can also be branded to your organisation.

Where requested, we also provide detailed course completion reporting to Compliance and/or Human Resources staff so that they can track the progress of users. Reporting can be customised to your specific needs and reporting frequency. We find that clients are increasingly asking for more reporting, as they find that our reports can help them as evidence of course completions for:

- ✓ Group Compliance;
- ✓ Internal Audit;
- ✓ External Audit;
- ✓ Regulators;

PC and Browser Compatibility

Google Chrome (30+), Apple Safari (V7+), Mozilla Firefox (V25+), Microsoft Internet Explorer (V9+) and Microsoft Edge. We produce Adobe Flash (10.3+) and HTML5 versions of each course. Our courses contain audio narration.

Headphones

As many people work in an open plan environment, many of our clients like to purchase headphones for staff to complete their courses without disturbing other team members. For orders over 50 users, we are able to produce a range of headphones, branded with your company logo, as a package alongside your course purchase.
